Verify Your Identity

When it comes to property transactions like buying, selling or transferring ownership, confirming your identity is essential.

You might hear this referred to as VOI (Verification of Identity) or KYC (Know Your Customer) – but they both mean the same thing: making sure the person you're dealing with is who they say they are.

At easyAML, we make this process simple, secure and seamless. Our technology guides you through each step, helping you verify your identity quickly and accurately, without the usual paperwork or complexity.

All information captured during the process is encrypted and securely stored in Australia, giving you confidence that your data is protected at every stage.

In the following pages, we'll walk you through how the identity verification process works.

What you'll need

To complete your identity verification, you'll need:

PRIMARY DOCUMENTS

Passport (*Australian or foreign passports with Visa*)

Australian Driver's Licence (*Including Proof of Age cards*)

SECONDARY DOCUMENTS (if you don't have the above)

Full Birth Certificate OR Citizenship Certificate

and

Medicare OR Centrelink OR Veteran Card

No app download required.
